Mott Manufacturing

Mott Manufacturing is one of the largest science and lab casework manufacturers in North America. Along with having several state-of-the-art technology and manufacturing facilities, they also provide excellent customer service. Learn more at <http://www.mott.ca/>

Iowa Biotechnology Association

Since 1994, this association promotes the interest and growth of life science industries in Iowa. This is a non-profit, membership-based organization with a diversified membership including industry companies from various biotechnology sectors, universities and colleges, state and federal associations, as well as several service and support companies. Other IowaBio contracts include office supplies and equipment, lab supplies and chemicals, property, casualty and liability insurance, and courier services. Learn more at www.iowabio.org.
